

POPIA Compliance

With the Protection of Personal Information Act (POPIA) going live 1 July 2021 it is important that you as clients of my practice are made aware of the security I have in place.

Your data privacy is my main priority and I remain committed to ensuring your personal information is processed using the highest data security standards.

The personal information requested on my Engagement Form is stored both digitally and hard copy files. The digital file is necessary as that information is then transferred onto your invoices and such information is required by your medical aid or Income tax. All such documents are processed using the highest data security standards that are in accordance with applicable laws.

The hard copy is kept in your file which then is stored confidentially for the period as required by the relevant legislation after which date the files are destroyed.
